Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Weakness 1.5 Evidence of valid interpretations of the assessments

Investigations aimed at the establishment of reliability of measures have been unevenly implemented.

Each semester we compile all our teacher candidate assessments (Praxis II content test pass rates; Praxis Principles of Learning and Teaching pass rates; Student Teaching Assessment (University Supervisors and Cooperating Teachers; Portfolio; Student Teaching Classroom Surveys (completed by public school students); Beginning Teacher Surveys (First-Year Teachers, Building Principals). We calculate averages and standard deviations for each assessment. In addition we are calculating the reliability each semester (Cronbach alphas) for the student teaching, classroom survey, and beginning teacher survey. We are also calculating correlations for the student teaching assessment with cooperating teachers and university supervisors; and with with classroom survey with cooperating teachers classroom students.

Section 7. Accreditation Pathway

Inquiry Brief. *Update Appendix E to confirm the categories of evidence the faculty members rely on and have available to support their claims that candidates know their subjects, know pedagogy, and can teach in an effective and caring manner. The update should also note any new categories of evidence the faculty plans to collect.*

A. Items under each category of Appendix E are examples. Programs may have more or different evidence.
