

Administrator Instructions for Grades 3-6 Student Survey

Read these instructions before starting:

“Before you begin, please fill in the top of your page. Fill in the date, your name, the name of your teacher, the subject your teacher teaches, the grade you are in, your school, and your school district. We will fill out the rest together.”

“I will read each sentence to you. Then, you will think about the sentence and circle the words and number you feel is right for you. Five you strongly agree and 1 you strongly disagree.”

“Ready? Let’s begin.”

Go around to each student to ensure they know how to complete the survey. Help those who need help understanding a question.
