I, of my own free will, desire that my child be allowed to participate in class and school field experiences during the school year. I understand that participation in these programs or activities involves a certain degree of risk and danger. I understand that all field experiences will be under the guidance of the classroom teacher and approved by the school’s director. Field experiences may involve short walks to sites on the university campus or in the vicinity of the school. On certain occasions students may be bused or transported to locations away from school. At such times I understand that notification will be given at least one day in advance for these types of activities.

In consideration of my child being allowed to participate in these activities, I fully and voluntarily accept all risks that may arise from direct or indirect involvement with these activities, and hereby agree to relieve Edith Bowen Laboratory School, Utah State University, its officer, agents, and employees (releasees) from any liability, except that for which they are solely negligent, and hold them (releasees) harmless from any injury, death, or property damage that may result from my child’s participation if this activity.

I further understand and agree that my child’s participation may be discontinued if, at the sole discretion of the Activity Supervisor, my child’s behavior is considered hazardous or disruptive to the other participants.

I represent that my child is in good health and in a physical condition capable of participating in such activity.

In the event of a medical emergency, I hereby consent and give permission for my child to receive medical care at a nearby hospital and/or by other medical personnel as necessary.
