

Emma Eccles Jones College of Education & Human Services
Edith Bowen Laboratory School
UtahStateUniversity.

Research Permission

Research projects from across the USU campus are conducted on an on-going basis at the school. Such projects often involve assessing the effectiveness of various instructional approaches or new educational applications of technology. All research at the school is first reviewed by the Director of Research & Dissemination and the University's Institutional Review Board.

I have read the above, and give permission for my child to participate in these research projects. I also understand that I will be notified with separate documentation of any major projects as required by the University's IRB.
