# Annual Report to the Faculty Senate <br> from the <br> University Council on Teacher Education 

Academic Year<br>September 1, 2016 - August 31, 2017

## INTRODUCTION

During the past year, September 2016 - August 2017, the University Council on Teacher Education (CTE) has continued to exercise its responsibility for the coordination and regulation of the Teacher Education Program at Utah State University. Operating within the framework of the Utah State University Code of Policies and Procedures, the Council has concerned itself with the:

1. development of teacher education curricula.
2. approval of all teacher education curricula.
3. admission and counseling procedures for students desiring to enter teacher education programs.
4. graduation requirements and the recommendation of graduates for professional licensure.

## MEMBERSHIP

The CTE is composed of 25 voting members consisting of the Dean of the Emma Eccles Jones College of Education and Human Services, who serves as Chairperson, the Vice Provost for Undergraduate Studies and Research, representatives from the departments within the Emma Eccles Jones College of Education and Human Services involved in the preparation of teachers, and representatives of the colleges offering teaching majors and minors. These members are nominated by the respective deans, in consultation with their staffs, and appointed by the Senate. The term of office is for three years with staggered appointments. The faculty member from the Emma Eccles Jones College of Education and Human Services selected to serve on the University Educational Policies Committee (EPC) is appointed by the Dean of the Emma Eccles Jones College of Education and Human Services to serve on the Council. Inasmuch as all curriculum matters relating to any teacher licensure program should receive consideration by the CTE prior to submission to the EPC, this appointment provides the necessary correlation and communication between the two bodies. In addition, the State Department of Public Instruction, the Utah Education Association, and the Society of Superintendents are represented on the CTE by one voting member from each respective organization. Students at the University are represented by the Senator from the Emma Eccles Jones College of Education and Human Services who has the privilege of one vote. An alternate student is designated to attend in the absence of the College's Senator. The membership of the CTE for the 2016-2017 academic year is identified on page 6 of the report.

The CTE meets regularly on the third Monday of each month. Attendance at the meetings is indicative of the involvement of CTE members in the affairs of the CTE. During the past year, approximately $69 \%$ of the membership was in attendance at all meetings.

## ACTIVITIES OF THE COUNCIL ON TEACHER EDUCATION

## Action Items—Program Changes

The CTE approved the following program changes:

1. All teacher education students are required to take TEAL 5500, "Innovative Integration of Technology in Teaching." This replaces ITLS 4015, which is no longer offered. Departments that had previously received permission to waive the ITLS 4015 course must now require their students to take TEAL 5500. In addition, methods courses should be integrating technology into the course content.
2. MATH 1051 has been created and approved as an alternative to MATH 1050 for special education, early childhood education, and elementary education majors. The course is successful, and teacher preparation programs would like to see the course offered more widely.
3. A Computer Science teaching minor was approved.
4. Course changes in the geography section of the Social Studies Teaching Composite Major were approved.
5. Course approvals were made for the following programs: Computer Science Education, Elementary Education, Math, Music Education, Secondary Education, Special Education, Theater Education, and Technology and Engineering Education.

## Information Items

1. DHA waivers. DHA waivers were approved to accommodate a course requirement by the Utah State Board of Education. The waivers are entered into the database system when students are approved for admission to teacher education, not when they are admitted to the university. At the beginning of the Spring 2017 semester, the Utah State Board of Education (USBE) was requiring either TEAL 4710-Language and Cultural Diversity in Education or TEAL 4745-Second Language/Literacy Acquisition and Development. The USBE then changed the requirements and stated that we did not have to have a specific class; we just had to demonstrate that we had the content in our coursework. The content has now been integrated into and Learning in the Content Areas SCED 4210-Assessment and Curriculum Design and SCED 4200-Language, Literacy, which allowed us to remove the class as a requirement. The DHA waiver is still in place and necessary in order to accommodate the two extra credits required with the TEAL-5500 Innovative Integration of Technology in Teaching course. The DHA waivers were approved for 3 years (starting November 2016).
2. As a common program assessment, beginning academic year 2017-2018, all teacher education students will be completing a Teacher Work Sample as a culminating project and performance assessment during student teaching. The data from the Teacher Work Sample will allow programs to assess learning outcomes as defined by the Utah Effective Teaching Standards.
3. Technology and Engineering Minor/Endorsement was approved by USU's curriculum approval process and the Utah State Board of Education (USBE) for a Technology and Engineering (TEE) minor/endorsement. This minor/endorsement would allow a student in any teaching area to add a TEE minor/endorsement by taking 5 additional TEE courses. It does not require a clinical and students would apply directly through the USBE. Doug Livingston is the USBE Specialist for the TEE endorsement. Students who complete the minor would be able to teach TEE classes at the middle school level. Elementary education majors would also be able to add this endorsement.
4. Secondary math endorsement requirements were changed. A level 2 math endorsement will now require students to have successfully completed Calculus I. All math endorsements will now require: MATH 3010-Pedagogical Foundations of Algebra or MATH 4400-History of Mathematics and Number Theory, MATH 3110-Modern Geometry, and STAT 3000-Statistics for Scientists. Math 3010, which is a new course, will be offered for the first time in Spring 2018. Changes are effective October 1, 2017.
5. The Department of Special Education will no longer approve out of state student teaching placements. States vary so much in their special education practice and licensure that when students are placed out of state, they often are unable to fulfill Utah's special education
licensure requirements. The department may be willing to override this policy on a case-by-case basis if extreme circumstances arise for students.

## STUDENT PROFILE

## Students in the Teacher Education Program

Admission into the Teacher Education Program at Utah State University requires formal application to the Office of the Associate Dean for Graduation, Educator Licensing and Accreditation in the Emma Eccles Jones College of Education and Human Services as well as the department where the major work is being offered. Students are not permitted to enroll in professional courses in education until they have been admitted to the Teacher Education Program. The current admission guidelines require that an applicant have a cumulative 3.0 GPA and a minimum composite ACT score of 21 with a verbal/English score no less than 20 and a mathematics/quantitative score of no less than 19.

A total of 394 undergraduate students were admitted into the Teacher Education Program during the period September 1, 2016 through August 31, 2017. This total represents an increase of 7.7 percent from the previous year. Table 1 presents a comparison of the students admitted into the Teacher Education Program by teaching major for the two-year period 2015-2016 and 2016-2017. Tables 2, 3, and 4 provide comparative data related to the criteria upon which students were admitted into the program and ACT scores of the applicants. Table 5 provides data related to the mean ACT scores, USU GPA, and cumulative GPA.

A review of these data indicates that ACT scores and GPAs of students admitted into the Teacher Education Program continue to compare favorably with the ACT scores and GPAs of their counterparts at the University. Three hundred forty-two (342) students admitted into the Teacher Education Program during the 2016-2017 academic year submitted ACT scores. The mean composite ACT score of these 342 students was 26.37. During the same period of time, the mean composite ACT scores of entering freshmen at Utah State University was 23.8. The 394 students admitted into the Teacher Education Program had a mean USU GPA of 3.11 and a mean cumulative GPA of 3.16. The Registrar's Office at the university reported a mean GPA for all sophomores at USU for fall 2016 of 3.18.

In addition, there were 157 students admitted to post-bachelor's education licensing programs. This represents a $2.5 \%$ decrease. These programs include: Administrative Supervisory Certificate (AS/C), Alternative Special Education, Communicative Disorders (Speech Language Pathology), Secondary Education Graduate Route to Licensure, and School Counseling.

## Graduates Recommended for Licensing

There were 498 students recommended for educator licensing and endorsements. This total is a decrease of 8.5 percent in 2016 as compared to 2015 (see Table 6). Three hundred eight-seven (387) students were recommended for initial licensing in 2016. This total is a decrease of 5.6 percent in the number of initial licenses granted.

## Praxis Content Testing

Table 7a shows that there were 1,764 tests attempted in the ETS Praxis II Content test in the student's major area, and 1,297 (74\%) passed. Pass rates for each content area ranged from 40\% to 100\%. The following content areas had a 100\% pass rate: Agriculture Education, Biology, Business, Early Childhood, Earth Science, Family and Consumer Science, French, Geography, Health, Library Media, Music, Physics, Reading, School Psychology, Special Education, and Technology and Engineering Education.

Although students are not required to take the Praxis Principles of Learning and Teaching Test (PLT) until they apply for their Level 2 teaching license, USU strongly encourages students to take the exam prior to graduation to enhance their marketability with school districts. Table 7b shows that 145 students attempted the PLT and 135 passed the exam, resulting in an $85 \%$ pass rate.

## Placement of Program Graduates

The job placement rate of program graduates continues to be of interest to the Council. In 2017 a total of 525 graduates were recommended to the Utah State Board of Education for initial licensing or additional endorsement areas. Four hundred twenty-four (81\%) responded to our placement survey. Of these, 352 ( $83 \%$ ) were employed in Utah and 19 (4.5\%) accepted teaching contracts out-of-state. These percentages represent a 93 percent placement rate for those seeking teaching positions (see Table 8). The 2017 placement rate is lower than the rate achieved in 2016, which was 94 percent. Some teaching majors have a much higher placement rate than others, and students seeking admission into the preservice teacher preparation program are informed that the probability for employment in some majors may not be as favorable as in other teaching areas. Placement rates for each major ranged from $50 \%$ (theater education) to $100 \%$. Additional statistics are as follows: 18 (3.4\%) were still seeking a teaching position; 16 (3\%) were not seeking a teaching position; 10 ( $2 \%$ ) had secured other employment, and 9 (1.7\%) were continuing their education.

## SUMMARY

This report provides the Faculty Senate with an account of the activities of the CTE and the status of the Teacher Education Program for the 2016-2017 academic year. The CTE's primary activities during this period have been directed at maintaining a quality program.

The membership of the CTE is cognizant of the need to provide well-prepared teachers for our public, private, and charter schools. In response to this challenge, the CTE will continue with its efforts to provide leadership, service, and accountability for the teacher education programs at Utah State University. The intent is to use data and stakeholder input to continuously improve our high quality preservice teacher education programs that will attract potential teachers from diverse populations. The information in this report provides evidence that the academic performance of students in the preservice teacher education program compares favorably with and, in some instances, exceeds the performance of their peers in other academic programs.
