SORENSEN LEGACY FOUNDATION CENTER FOR CLINICAL EXCELLENCE

ESTABLISHED SPRING 2018

The Sorenson Legacy Foundation Center for Clinical Excellence is the result of USU's strength in providing outstanding real-world service and research opportunities to students and faculty in human service disciplines. This center is the first of its kind in the Mountain West, providing comprehensive clinical services across the human lifespan through the integration of academic, research, and clinical service spaces.

Future human service providers receive interdisciplinary training as they work with USU faculty who engage in clinical practice and perform cutting-edge research. This new center enables the university to train students to enter a range of health and human service professions, including those where there are critical shortages across the state.

ABOUT US

The Emma Eccles Jones College of Education and Human Services is home to eight departments and is committed to quality teaching, research, and outreach. The college is an extraordinary place where students can become outstanding teachers, researchers, and human services professionals.

Graduate and undergraduate programs are strengthened by both on-campus elementary and preschool laboratory schools, and five stand-alone centers. These offer services to the community and provide students with real-world service, clinical, and research opportunities. We are committed to providing the best learning opportunities and educational research in the state of Utah and the nation.

GRADUATE DEPARTMENTS

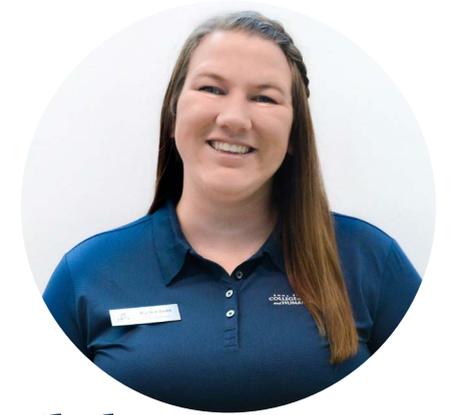

- ▶ Communicative Disorders and Deaf Education
- ▶ Human Development and Family Studies
- ▶ Instructional Technology and Learning Sciences
- ▶ Kinesiology and Health Science
- ▶ Psychology
- ▶ School of Teacher Education and Leadership
- ▶ Special Education and Rehabilitation Counseling

AROUND LOGAN UTAH

Logan is an idyllic gem nestled among beautiful mountains in the heart of Cache Valley—close to Bear Lake and 90 minutes north of Salt Lake City. Its wide variety of year-round outdoor activities is unparalleled. Logan is known for being one of the safest metropolitan areas in the United States. With various outdoor activities, low cost of living, community events, and friendly people, Logan is a great place to live as an individual or with any size family, and perfect for an active social life.

- Award-winning Schools • Sport Complexes
- Swimming Centers • Hiking and Biking Trails
- Scenic Parks • Free Summer Concert Series
 - Skiing • Boating • National Parks
 - Camping • Museums • Much More

“

As a proud undergraduate alumna from the Emma Eccles Jones College of Education and Human Services, my choice to return here for graduate school was an easy one. I most admire that all of the programs within the College are focused on providing real-world experience, alongside knowledge and information. The opportunities for student collaboration and exploration, with support from faculty and community, are nearly endless. It is my philosophy that an education can be just as much about sharing experience, as it is gaining experience. Sharing with fellow scholars in research, learning, teaching, and service continues to cultivate a truly stellar academic and practical experience at Utah State University.
