ITLS

INSTRUCTIONAL TECHNOLOGY AND LEARNING SCIENCES

The Instructional Technology and Learning Sciences (ITLS) department offers five high quality graduate degree programs. Faculty areas of specialization include problem-centered instruction, gaming and mobile learning, STEM education, learning through making, instructional and interface design, learning analytics, and engaging underserved populations through technology.

> *ITLS master's programs are offered face-to-face or online. Utah State University is ranked #6 in the nation for best online graduate programs.*

OPPORTUNITIES

Graduate students research, design, and create learning experiences using multi-media tools ranging from web development to video and graphic design. ITLS has faculty who are skilled in research, evaluation, and software applications and who are committed to helping students excel.

Graduates from ITLS can work in government, education, private sector, or military settings. Depending on their interests, students may focus on administration, project management, design work, UX/UI, multimedia development, or training. Graduates gain the technical skills and theoretical knowledge to succeed in a wide variety of fields.

Employment opportunities can include:

▸ **Curriculum Consultant**
▸ **Educational Faculty**
▸ **Elearning Development**
▸ **Instructional Designer**
▸ **Mobile App Developer**
▸ **Training Management**
▸ **User Interface Developer**
▸ **Web Developer**

                            October 15th for Spring

REQUIRED EXAMS

GRE/MAT no longer required
International students must take the TOEFL

HOW TO APPLY

1. Visit gradschool.usu.edu/apply/
2. Supply email addresses of 3 references
3. Pay the $55 fee (waivers available to some ITLS students)
4. Non-USU students: provide official transcript

"

ITLS has given me the opportunity to go beyond my own ideas about learning. As a PhD student, I feel supported and encouraged as I explore diverse activities and technology."

—Joana Franco
PhD student
