ELECTIVES (6 Credits)				
		3 ^e		
		3 ^e		
78 Total Credits Needed for Graduation			Total Credits on POS	
Notes:				

Updated 2024

^a Course will be offered each fall to the second-year doctoral cohort

^b Research scope and outputs to be determined by the student in consultation with the student’s major professor, Supervisory Committee, and/or practicum mentor

^c Prerequisites: HDFS 6031, EDUC/PSY 6600, and EDUC/PSY 7610, or equivalents as approved by Graduate Program Committee

^d Offerings will be determined by the HDFS department head and faculty member

^e May include any of the “pick three” or “pick five” courses, or classes from other departments as approved by the Supervisory Committee

[^] Content and timing of course offerings will be coordinated between EDUC, HDFS, and PSY. To avoid low and overlapping enrollments, the college has proposed that PSY 7650 be offered in the Fall, PSY 7760 in the Spring, and PSY 7770 every other Fall. It is proposed that HDFS 7100 be offered every other Spring. A comprehensive list of methods and statistics courses offered within the college can be found [HERE](#).
