Notes: • The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above. Coursework that is below the 5000 level should typically be in areas outside the student's graduate degree field and must be approved by the student's advisor as appropriate for the student's individual degree program.

• No more than 12 semester credits taken at USU or another institution prior to matriculation at USU may be used in a program of study for a graduate program at USU. Credits with P grades may be transferred **only** with advisor approval.

The following tables show a recommended order of study for students to complete within 2 years:

** Check the current and upcoming class schedules on the ITLS website, or with your advisor, for availability and course options.

Your program of study is under the direction and approval of the ITLS program advisor.

Your Program of Study (PoS) is the official agreement between you, the USU School of Graduate Studies, and the ITLS department that the courses listed therein fulfill the requirements for the specified degree. An advisor is assigned upon matriculation to the program to guide you through the coursework. The culminating experience will be under the supervision of an ITLS faculty member; this is determined each semester on a rotating basis. If there is a specific faculty member you would like to work with for the culminating experience, consult with the ITLS program advisor to make those arrangements.
