

# School Library Media Administration

## Endorsement or Minor Program Planning Sheet

### Department of Instructional Technology & Learning Sciences Utah State University

**Overview:** The purpose of the School Library Media Administration program is to provide both pre and in-service teachers with the courses necessary to meet the requirements for USBE library media K-12 endorsement as a school library media teacher in the state of Utah. It is assumed that the individual seeking a teaching license endorsement in library media holds, or is working toward, licensure as a classroom teacher. Students enrolled in the teacher education program at either the elementary or secondary education level at Utah State University may elect the program as an undergraduate minor.

**Program:** The program is designed for students to begin fall semester and complete all requirements by the end of summer semester, but the courses may be taken out of sequence. The program consists of six courses for a total of eighteen credits. Each semester, the courses (except ITLS 5500) are synchronously broadcast on Tuesday evenings, with additional materials and assignments online.

Required Courses (18 credits)			Credits	Fall	Spring	Summer
ITLS	5000	School Library Foundation and Learning	3	S		
ITLS	5015	School Library Organization and Access	3	S		
ITLS	5025	School Library Instruction and Assessment	3		S	
ITLS	5030	School Library Literacy and Programs	3		S	
ITLS	5040	School Library Leadership and Administration	3			S
ITLS	5500	Innovative Integration of Technology in Teaching	3	O	O	O

Completion of the SLMA coursework from Utah State University (USU) is separate from applying for the Utah State Board Education (USBE) endorsement. To apply for the USBE library media endorsement, go to: <https://www.schools.utah.gov/curr/librarymedia>

Note: If you are currently not a student at Utah State University, you must apply and be accepted before you begin the coursework.
