Connected Learning Summit

06/26/2023

Connected Learning Summit Deadline July 1

The Sixth Annual Connected Learning Summit is happening October 26-28 Virtually, the submission deadline is **July 1**.

CLS2023 invites submissions of Research Papers and Showcases that focus on digital technologies for learning, educational and commercial games, innovative tech-infused curricula, and theoretical and/or empirical exploration of digital media and technology for learning. We particularly encourage submissions that are responsive to issues of pressing contemporary concern – a global racial reckoning, pandemic-fueled digital transformations, persistent social inequities, and the climate crisis.

CONNECTED LEARNING SUMMIT
Create. Play. Mobilize.

Submissions are open for
the Sixth Annual
Connected Learning Summit
happening virtually October 26-28!

Be sure to submit by our new closing date of July 1st, extended to accommodate additional submissions.

We invite submissions of Research Papers and Showcases that focus on digital technologies for learning, educational and commercial games, innovative tech-infused curricula, and theoretical and/or empirical exploration of digital media and technology for learning. We particularly encourage submissions that are responsive to issues of pressing contemporary concern – a global racial reckoning, pandemic-fueled digital transformations, persistent social inequities, and the climate crisis.

CLS2023 will be entirely online, using the Whova platform. Our program will start with a pre-conference day for conversation around topics of shared interest as well as meetups for Research Paper and Showcase contributors. The Main Conference will include keynote and plenary sessions, and workshops organized by CLA partners. The majority of the event will be programmed during work hours in North America, but will also include some programming in the morning hours of Asia and Australia.

For more information, please visit our website and sign up for updates about the Connected Learning Summit.
