Your program of study is under the direction and approval of the ITLS MA program advisor.

Your Program of Study (PoS) is the official agreement between you, the USU School of Graduate Studies, and the ITLS department that the courses listed therein fulfill the requirements for the specified degree. An advisor is assigned upon matriculation to the program to guide you through the coursework. The culminating experience will be under the supervision of the ITLS MA advisor, however, if there is a different faculty member you would like to work with for the culminating experience, consult with the ITLS MA advisor to make those arrangements.
