

Utah State University (USU)
 Master's of Rehabilitation Counseling (MRC)
 Program Evaluation and Student Assessment Plan

USU MRC Program Objectives:

The program provides a high-quality learning environment which stimulates interactions and communication with faculty and other students. The program also provides opportunities for students to have exposure with industry leaders, workers, consumer and advocacy groups, and other helping professionals. Students are encouraged to develop skills for lifelong learning through involvement with professional organizations, professional counseling literature, and conference participation.

The following program objectives are used to assess student learning outcomes within the program:

1. Students will be knowledgeable of and adhere to the ethical standards of professional counseling organizations, specifically the American Counseling Association (ACA) Code of Ethics and the Commission on Rehabilitation Counselor Certification (CRCC) Code of Professional Ethics.
2. Students will understand the impact of heritage, attitude, beliefs, understandings, and acculturative experience on their individual views of others.
3. Students will understand and apply theories of individual and family development across the lifespan to enhance case conceptualization and service delivery.
4. Students will be able to implement strategies for facilitating client skill development for career, educational, and life-work planning and management.
5. Students will be able to use essential interviewing, counseling, and case conceptualization skills as they engage with clients.
6. Students will understand the dynamics associated with group counseling process and development.
7. Students will be able to use assessments for diagnostic and intervention planning purposes.
8. Students will understand the basic elements of qualitative, quantitative, and mixed research methods.
9. Students will be able to assist individuals with disabilities in obtaining knowledge of and access to community and technology services and resources.
