

Jumping In

Activity: You will study an image and “jump into” it. This strategy engages all 5 senses and helps practice perspective taking. After providing a source, ask students the following questions.

Source Title	Where would you like to land?	What do you see in this spot?	If you were to <i>touch</i> something near you what would it feel like?	What do you <i>smell</i> ?	What might you <i>taste</i> ?	What do you <i>hear</i> ?
