Student Teaching Evaluation Rubric (STER), July 2024

Aligned with the USBE General Teacher Education Competencies, which were approved June 6, 2024

When used as a summative assessment at the end of the final clinical experience, the expected (i.e., required) level of performance is two (2) or “demonstrates competency at expected level.” In addition, when used as a summative assessment, teacher candidates/student teachers are not expected to score a three (3) on any rows of the rubric; however, teacher candidates/student teachers are not succeeding if they score a zero (0) or one (1) on any row of the rubric. Thus, to succeed, the total score must be 70 or higher (minimum of 2 on each item).

Note that some rows of the rubric require a supervisor to consult with the teacher candidate’s mentor teacher in order to have sufficient information to assign a level of performance. These rows are marked with the phrase “Conference w/MT.” Some rows may also require that the supervisor consult with the teacher candidate/student teacher. These are marked with the phrase “Conference w/ST.”

Also, note that some row descriptors stack on each other and some do not. For example, in item 1 of the rubric, the “demonstrates competency at expected level” includes the behaviors described under “approaching competency”. And to exceed expected level of competency, one must also demonstrate the behaviors listed under both “approaching competency” and “demonstrates competency at expected level.” This stacking is indicated using “...and” at the beginning of the descriptor. On the other hand, there are some row descriptors that do not stack on each other. For example, in item 4 of the rubric, there are no “...and” phrases. So, to score a 2, or “demonstrates competency at expected level,” only the behaviors listed in that cell must be demonstrated. Finally, there are occasional uses of OR and AND to indicate that either behavior or both behaviors should be demonstrated in order to score at a specific level.

1) Conference w/ MT

IC3: Design learning experiences aligned to learning intentions and success criteria.

Demonstration competency

Does not demonstrate competency (0)
 • No evidence of learning objectives/intentions in design of learning experiences.

Is approaching competency at expected level (1)
 • Inconsistently provides evidence of learning objectives/intentions or success criteria in lesson plans

Demonstrates competency at expected level (2)
 • Designs learning experiences that are aligned to learning intentions and success criteria.

Exceeds expected level of competency (3)
 ...and
 • Uses students' response to instruction to inform future lessons.

10) Observation or Conference w/ MT and ST

Instructional Clarity: Effective teachers exhibit knowledge, skills, and dispositions that demonstrate clarity regarding the content they teach and how to organize and sequence it to effectively facilitate learning and drive student engagement.

Item stem: Teacher candidate...

IC7: Design a variety of instructional strategies to engage students and promote active learning.

Application competency

Does not demonstrate competency (0)
 • Does not engage students or promote active learning.

Is approaching competency at expected level (1)
 • Uses a limited range of instructional strategies.

Demonstrates competency at expected level (2)
 ...and
 • Uses a variety of instructional strategies that engage students and promote active learning.

Exceeds expected level of competency (3)
 ...and
 • Uses strategies that engage a majority of students and promote active learning on a consistent basis.

Next section: Instructional Practice

13) Observation

Instructional Practice: Effective teachers exhibit knowledge, skills, and dispositions that support instructional practices that drive high-quality instruction, demonstrate a data-driven and cooperative approach to teaching and learning, and meet the diverse needs of all learners.

Item stem: Teacher candidate...

IP1: Include differentiated strategies aligned with lesson objectives to meet the unique needs of every student.

Application competency

Does not demonstrate competency (0)

- Is not aware of learners' unique needs
- AND
- Does not use differentiated strategies.

Is approaching competency at expected level (1)

- Demonstrates awareness of learners' unique needs but does not differentiate for learners' unique needs.

Demonstrates competency at expected level (2)

- Includes differentiated strategies aligned with lesson objectives to meet learners' unique needs.

Exceeds expected level of competency (3)

- ...and
- Is able to design instruction for students who need additional or extensive support to meet lesson objectives.

14) Observation

Instructional Practice: Effective teachers exhibit knowledge, skills, and dispositions that support instructional practices that drive high-quality instruction, demonstrate a data-driven and cooperative approach to teaching and learning, and meet the diverse needs of all learners.

Item stem: Teacher candidate...

IP2: Provide appropriate strategies to promote and facilitate students' problem solving, critical thinking, and discourse.

Application competency

Does not demonstrate competency (0)

- Does not use strategies to promote students' problem solving, critical thinking, or discourse, e.g., uses teacher-centered instruction.

Is approaching competency at expected level (1)

- Allows learners to contribute during instruction.

Demonstrates competency at expected level (2)

- Uses appropriate strategies to promote and facilitate students' problem solving, critical thinking, or academic discourse during instruction.

Exceeds expected level of competency (3)

- ...and
- Uses strategies that are effective for the learning tasks and articulates their reasons for using the strategy.

15) Conference w/ ST or MT

Instructional Practice: Effective teachers exhibit knowledge, skills, and dispositions that support instructional practices that drive high-quality instruction, demonstrate a data-driven and cooperative approach to teaching and learning, and meet the diverse needs of all learners.

Item stem: Teacher candidate...

	Does not demonstrate competency (0) • Does not use student assessment data to inform instruction.	Is approaching competency at expected level (1) • Inconsistently uses student assessment data to inform instruction.	Demonstrates competency at expected level (2) • Uses both formative and summative data to inform and adjust instruction.	Exceeds expected level of competency (3) ...and • Consistently seeks data to inform and adjust instruction to meet the needs of learners.
